## About me

---

A Front-End Developer with extensive experience as a freelancer in web development and UI/UX, I possess strong adaptability and can work effectively both in teams and independently. My commitment to continuous learning enhances my ability to contribute meaningfully to technology projects.

## Education

---

### 2020 - 2023 | SMKN PGRI 1 GIRI Banyuwangi | Computer Engineering and Networking

This program prepares students to have expertise in managing and integrating computer networks, as well as developing IT infrastructure. The subjects taught include network system management, data security, server administration, and the application of new technologies in the field of information technology.

### 2023 - 2024 | STIKOM Banyuwangi | Bachelor of Informatics Engineering

This Informatics Engineering program prepares students to master the development and application of information technology. The curriculum includes programming, data analysis, cybersecurity, and application development, providing a strong foundation for innovation and technological solutions. Although I have decided not to complete my studies, the experience and knowledge gained during my time in the program have become a crucial foundation in my career as a Front-End Developer.

## Work Experience

---

### 2022 | Computer Technician Internship | ID Compute

During my internship as a Computer Technician, I was actively involved in the maintenance and repair of computer systems, as well as assisting in the technical management that supports the company's operations.

### 2021 - Now | Freelancer Front-End Developer |

As a Front-End Developer, I am responsible for developing responsive and engaging web interfaces using HTML, CSS, and JavaScript, along with frameworks such as React, Tailwind, and Bootstrap to enhance user experience and ensure cross-platform compatibility.

## Skills

---

**Teamwork and Individual Skills | Resilience Under Pressure | Creativity and Innovation |**

**Quick Adaptability | Web Development and UI/UX**
